# MAD M2-34

### ENDLESS POSSIBILITIES

Ready to bring the LOUD? This is the MAD M2-34, a compact and versatile addition to your car audio setup. With a 3.5 inch midrange size, this speaker brings a lot of crisp and clear voicing! Whether you want to create a 3-way or 2-way component kit, or simply use it as a standalone addition to your existing setup, the options are endless. Don't let any restrictions hold you back - make your car audio setup LOUDer and better than ever with the MAD M2-34.

### A MAD SPEAKER TO FIT EVERY NEED

There's nothing better than replacing that old dusty wannabe speaker that's been hiding behind your door panel. Did your old speakers break 'cause they couldn't handle your level of LOUD? The M2-34 is ready for you. Be proud, be loud, be MAD!

### DESIGNED TO BE DURABLE

Our research department has truly gone MAD! For our MAD S2 subwoofers we developed a new kind of IMPP cone. We decided that this feature was so good - we brought it over to the M2 series. This means that the M2 series speakers are very durable, moist proof and ready to kick some ass!

### SWEDISH DESIGN, MAD SENSIBILITIES

The 25mm KSV voice coil is wound with lightweight CCAW (Copper Clad Aluminum Wire) that creates a dynamic sound. Since the Swedish weather encompasses all different seasons - the M2-34 is designed to withstand them all. Hot, cold, UV rays - it doesn't matter. It's MAD and it's made to play LOUD, no matter the circumstances!
