

## MAD M230-BTN

### MAD IN EVERY POSSIBLE WAY

Take it to the next level with the MAD M230-BTN! This powerful double DIN head unit brings WAV and FLAC audio playback for a true sound experience in your car. Enjoy music through Bluetooth, USB or AUX - or tune in your favorite radio channel while traveling. We don't call ourselves Audio Power for nothing!

### PRECISION CONTROL

We know you're all about pushing boundaries—adding one, two, or even more amplifiers to your LOUD sound system. That calls for at least three pairs of RCA outputs. The MAD M230-BTN puts you in full control with its advanced 2-way crossover network. High-pass crossovers drive your front and rear speakers, while low-pass crossovers unleash the power of your subwoofers. The 14-band equalizer lets you sculpt your sound exactly how you want it. And when it comes to precision, our FLA (Fine Level Adjustment) function lets you fine-tune the levels of every channel for an unrivaled front-seat experience. Time to show your MAD dedication and crank up the LOUD like never before!

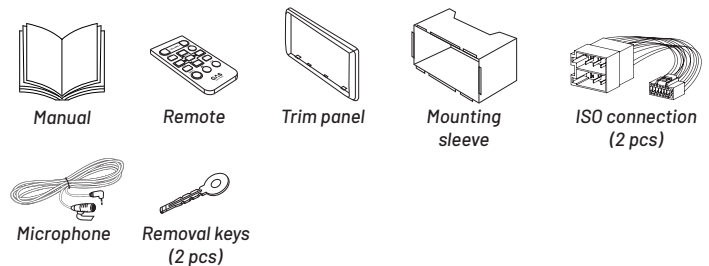

### SAFETY FIRST

Staying connected isn't just important—it's essential. That's why we've equipped the head unit with Bluetooth and not one, but two microphones: one in the head unit and an external one (cable included). With the included remote control, you can control your system from any seat—or even from outside the car. Time to go LOUD and live PROUD!

## SPECIFICATIONS

GENERAL		EQ/NETWORK SET	
Component	2 DIN head unit	Equalizer 14-band	30Hz, 60Hz, 80Hz, 120Hz, 160Hz, 250Hz, 400Hz, 600Hz, 1.5KHz, 2.5KHz, 4KHz, 8KHz, 12KHz, 16KHz
Output power MAX	4x50W	Equalizer range	-18dB to +18dB (1dB steps)
Full bandwidth power (at less than 10% THD)	4x25W	FLA SET FINE LEVEL ADJUSTMENT	Position Front L, Front R, Center, Custom Front L/R REAR L/R SUB 0 to -38,75dB (1.25dB steps)
Bluetooth version	BT 5.3	SUB SET / SW FREQ	OFF, 30Hz, 60Hz, 80Hz, 100Hz, 120Hz, 150Hz, 180Hz, 200Hz, 250Hz, 300Hz
Speaker impedance	4-8 Ohm	PHASE	Normal/Reverse
Frequency response	20Hz-20kHz	GAIN	0 to +5 (1dB steps)
2V pre-outs 3 pair	Front, Rear, Sub	SLOPE	6, 12, 18, 24 dB/Oct
Pre-EQ	Natural, Rock, Techno, Pop, Custom	F+R SET / HPF FREQ	THROUGH, 30Hz, 40Hz, 50Hz, 60Hz, 70Hz, 80Hz, 90Hz, 100Hz, 120Hz, 150Hz, 180Hz, 200Hz, 250Hz, 300Hz
Pre-out level	2000mV / 10kOhm load		
Power antenna lead	+12V to external amp. or electric antenna		
USB charging	1.5A		
FM-radio frequency	87.5MHz-108MHz (50kHz step)		
Front input	USB, AUX & Micro SD-card		
USB formats	MP3, WMA, ACC, WAV, FLAC		
Panel	Detachable
